3. Dr.Karthik  
Professor, Dept of E&C  
KSSEM  
Bangalore.

All the 8<sup>th</sup>sem students assembled in the above said labs along with their working models ready for presentation. The students exhibited /demonstrated their working models along with the poster.

There were 32 teams , with 4 students in a team.

The students explained their projects , its implementation methodology and its applications to the judges.

The judges selected best three projects.

Feedback from judges:

1. Projects were of good quality.
2. Most of the projects were societal relevant.
3. Good efforts from the students to carry out the projects.
4. All the projects are successful working models.

The judges addressed the students and provided their valuable insights. The exhibition was concluded in the seminar hall and high tea was arranged for all the students and staff of E&C department.
