

# SOUVENIR

2013-2017

Unwrap  
your Sweet  
memories  
with a  
Smile on  
your face.

Then, Now, Forever

They looked back down the lane of College Corridors,  
The benches seemed to be moaning a loss,  
It's favourites were leaving.  
Teachers started missing their dearest students,  
Yes seniors it's you!

From being the best seniors,  
To being the best friends.  
Every moment through the 4 years,  
are one's which shall always end with a happy tear  
Down your eyes.

From ethnic days to college fest,  
Crazy selfies to April fool pranks,  
Long lectures to mass bunks,  
Long drives to group studies,  
The span of 4 years just went,  
as if it was yesterday you started you left the CET errands.

Happiness of an average to some,  
And the proud moment of topping the class.  
The secret round table talks  
That ended with gobi fried rice of canteen.

Shivu anna's important question Xerox,  
To never ending assignment's shocks.  
Running late to the first class,  
Yes it's hasn't been just studying,  
It's been a journey.  
Seeing it through it has been you!  
Thank you for those wonderful moments and memories,  
And hope you savour them back again!  
Seniors you have been the best ones,  
Then, now and forever.

- Dedicated to seniors by Adithya Pai, MED

## Our Vision:

“To strive continuously to impart quality technical education with ethical values, employable skills and research to achieve excellence.”

## Our Mission:

- To attract and retain highly qualified, experienced and committed Faculty.
- To create relevant infrastructure.
- Network with industry and premier institutions to encourage emergence of new ideas by providing R & D facilities to achieve excellence.
- To inculcate professional and ethical values among students with employable skills and knowledge acquired in transforming society.

## SOUVENIR TEAM

### Message By Editor

The editorial team of the Kammavari Sangham Institute of Technology proudly presents its third edition of souvenir. This souvenir is a trip down your memory lane helping you to recollect the wonderful, blissful and eventful chapter of your professional college life.

*ALL THE BEST TO ALL OUTGOING  
STUDENTS!!*

**G**reat photos of the great moments always give us a great joy!

## **MANAGEMENT COMMITTEE**

### **SITTING (LEFT TO RIGHT)-**

**SRI R.LEELA SHANKAR RAO** (Joint-Secretary), **SRI K.VENKATESH NAIDU** (Hon- Secretary), **SRI K.SHIVA RAO** (Vice-President) , **SRI Y.RAMACHANDRA NAIDU** (President), **SRI T.RAMACHANDRA NAIDU** (Vice-President), **SRI B.LOKANADHA NAIDU** (Joint- Secretary), **SRI D.RUKMANGADA** (Treasurer), **SRI L.KRISHNAMURTHY** (Internal Auditor).

### **STANDING (LEFT TO RIGHT)-**

**SRI T.NEERAJAKSHULU NAIDU** (Chairman Hostel Committee), **SRI M YOGAMURTHY** (Chairman Finance Committee), **SRI M.C.VARADHARAJULU** (Director), **SRI D.JAGADISH KUMAR** (Chairman Hospital Committee), **SRI N.KRISHNAMA NAIDU** (Chairman Building Committee), **SRI M.N.PADMANABHA** (Director), **SRI N.M.KRISHNAMURTHY** (Director), **SRI T.KUMAR** (Director), **SRI P.B.PRAKASH KUMAR** (Chairman Transport Committee), **SRI A.V.NAGARAJ** (Director), **SRI M.SUDHAKAR** (Chairman Legal Cell).

Dr. A.P.J Abdul Kalam once said “You have to dream before your dreams come true”. The Kammavari Sangham Institute of Technology is but a mother tree which bears talented fruit. If a fruit were sentient it would wish to be the sweetest fruit of all and mother would provide for all its wishes.

From its humble beginnings, the Kammavari Sangham Institute of Technology has now become an emissary of knowledge churning out up to 470 bright citizens every year poised to bring about a revolution to mankind.

While you flip through the pages of this souvenir, may it serve to be a trip down memory lane through the four years of your stay here.

The Management of this Institution wishes you the best as you endeavour to embark on yet another voyage fulfilling your respective dreams and aspirations as you look to break barriers and create paradigm shifts for the next of your cherished lives.

**BEST WISHES.**

**MANAGEMENT**

**Dear KSITiens!!!!!!**

A very warm and excellent morning to each one of you present here! And a very cordial welcome too!

At KSIT we believe in enabling one to explore new realms of wisdom and for us an educational institute is not just teaching, but about building character,

inspiring minds and about enriching experiences that lasts a lifetime. We will strive for providing an enabling culture, to the students to learn and grow fearlessly and aim for perfection.

Now to you my dear graduating students, you entered the portals of KSIT, few years ago. Now the time has come to bid farewell to your alma mater which has protected you and guided you all these years.

I take this opportunity to thank all the faculty members, staff members and students, without whose cooperation such a wonderful teaching learning environment would not have been possible.

Wishing you academically and professionally highly rewarding years ahead and to carry sweet memories of this institution.

May God bless you abundantly. Wish you all the very best in life.....Stay connected.

**Jai Hind**

**Dr. T.V. Govindaraju**  
**Principal/Director**

I believe that there exist Determination and Moral support to achieve an initial step of something best and humongous in life. Deciding to pursue Bachelors in Mechanical Engineering was the best thing in my life and the moral support for this was provided by my second best choice that was Joining K S Institute of Technology. This institute, over the time period of 4 years has opened lot many doors of opportunities for my personal and academic development. These 4 years are the most admirable moments of my life. This Institution has been

more amusing and exciting than I ever imagined, be it the classroom teaching, machine shop and laboratories or even the never ending cultural activities. Being a Mechanical engineering student I always loved attending laboratories, the satisfaction of designing and machining components are overwhelming. The professors provided us with real-world examples of how the concepts that we are learn in class are being applied in the real engineering world, getting to learn the new technologies were always interesting. The true encouragement and support from our beloved HOD and the faculty members were never diminishing. From this journey of being a Royal mechanical engineering student at K S Institute Of technology I will carry a huge Hand Book only filled with amazing Memories and most importantly culture, values and morale which I will cherish throughout my life.

- **AMITH.H.R**

“Education is the passport to the future, for tomorrow belongs to those who prepare for it today”-Malcolm. I would like thank the editorial team for giving me this opportunity. My way to this broad field of Mechanical engineering started in this highly esteemed institution K S INTITUTE OF TECHNOLOGY .My curriculum at KSIT was more interesting and fun that i had thought before, all the faculties of the department did their best in delivering the subject interestingly and it was fun filled

as well. I never felt the subjects difficult this was all because of our lecturers, the way they thaught us was tremendous I could hardly find any problems . KSIT provided us cultural exposure “ANANYA” which was an excellent platform to showcase our talent . The college provided us an excellent placement opportunity that I can never forget, we got the maximum exposure, in this opportunity I would like to thank the placement coordinator for continuously working for us.I can loudly say that KSIT is the best college for both academics as well as cultural aspects. Last but not the least I would like to thank our beloved HOD, PRINCIPAL, MANGEMENT for providing us such a good environment for our journey in the college and making our life successful by providing all the necessary resources.

- **RAJATH NAG**

Firstly I would like to thank The Department, Management and the editorial team for giving me this opportunity to share my experience.

When I joined Mechanical Engineering at KSIT I had no idea how I would endure these four years and was confused if I had made the right choice. Thinking back now, I would say KSIT has offered enough opportunities to have a better and stable future. My study at KSIT has been more interesting and enjoyable than what I could

have ever imagined. The faculty here is ever caring and has organized many workshops, seminars and presentations. Each and every lecture was made interesting and related to current technologies with examples. KSIT has provided me with a unique opportunity to be a part of the Aeromodelling club. The Principal, Management, HOD and the faculty have been nothing but supportive and encouraging in all aspects. Apart from academics KSIT has provided me with enough extra-curricular activities such as being a member of Emanation, organizing events, participate in other competitions as well. The most memorable event for me was our college fest ANANYA where we were endorsed to showcase our talents. Finally I would like to say KSIT helped us become better individuals and has equipped us for the challenges in the future. -**DINAKAR.D.P**

“The most subtle changes are usually the most surprising ones.” When I do say KSIT, it's not the college I refer to, but the journey that I've embarked upon. Today 4 years later as I look back, it's been a journey of exploring unknowns, a journey of breaking down of mental barriers, a journey of learning to laugh in the most adverse of situations, a journey of achieving the stuff of dreams, a journey where I met some of the most amazing people and best of all a journey of meeting the most amazing version of me, till date.

A book once told me that the universe is conspiring every moment to give us what we desire and I actually believe that everyday has got in store for us something that might just change our lives based on how we receive it from the universe. So go out, get dressed, be there, do that, laugh, cry, fall, rise, slow down, speed up but just don't stop because nothing around you ever will. “**Dream big**”, it's one of the best things I've learnt here. It is a beautiful feeling to do the things you never thought you could. Invest in your dreams, they'll give back returns you only dreamt of getting. Lastly we've all had our own share of bitter and sweet experiences here and instead of me writing down my own for you to read, let's take a moment individually to remember our own and rejoice in the fact that you've made through this phase of life and made through it rather well. What's next? Who knows, all I need to know is that I'm ready. Are you? -**PIYUSH VERMA**

**SHRI RAKSHA.N**

When I joined KSIT, it was a whole new experience, a whole new world. I had left most of my friends back at the school where I did my class XII. Experiencing the college life for the very first time, was no less than an evolution. So there I was in a new place, where none knew me, and friendless. Surprisingly, all these changed in a matter of days. I was lucky enough to find people who matched my frequency. Through the highs and lows of life, they have been with me. For the past four years we have attended classes, bunked classes, hosted events, launched club, spilled the beans, cajoled teachers, fought with each other and made up, spent hours at the canteen doing nothing better than whiling away time without a care. But life was never meaningless or wasted. There was always a lot to do. But at that time, during the four years, we never realized that time was passing very fast. We moved to eighth sem and were the senior most in college with placements, seminars, projects, fests and a lot more responsibilities on our shoulders. But this never seemed to affect us. I think this was largely due to the faculty who remained a constant source of support to all of us. Everything was done with a smile and done well. My lecturers have taught me more than the course; they have taught me about life. This has helped me decide what to do in life, career wise and personally. I am sure KSIT has helped all its students, past and present, in the same manner. It has shaped me competent enough to make my decisions in life. Come what may, the days spent here shall always remain in memory. Thank you KSIT, for everything.

I was a kid with dreams, a kid with zest to learn, a kid with great interest in computer programming. The path to success, which has changed this kid's life, was through 4 years of extreme engineering at this glorious Institution, K. S. Institute of Technology. Through all the 4 years of continuous support by the learned faculty, by my supportive parents and by my wonderful friends, I have crossed multiple milestones with ease. Right from learning fundamentals in Basic science & computer science to learning advance Computing.

Of course, college life is one such part in anybody's life which once completed will never come back, I had complete fun-filled college life which includes smiles, tears, fights, secret(which became public)-crushes, celebrations, labs, records, bunking, internals assignment and many more

Thank You KSIT for being most evocative memory.....

Dedicated to all my friends.

**MALINI.T.R**

In my Diploma days I always yearned of becoming an "Engineer". The beautiful journey of my engineering started when the name KSIT got flashed on my computer screen as results for college allotment were announced. I was so excited along the way to KSIT for lateral entry and finally reached there. It is my Privilege to share few good experience that I have come across my life in K S institute of technology. I can still remember my first day at college, had logic design theory class in first hour, I got to know my classmates and there beautiful journey engineering unfolded. Each and everyone supported me. Dept of CSE is unique. Studying here as been a fantastic learning experience. It's been a pleasure studying in Dept of CSE and I will truly miss it. It as provided me all the ethics and values along with the best education one can have. The day has come where I would like to thank Management, Principal, teaching staff, non-teaching staff of CSE dept of KSIT, that has always been with us and guided us in every step of this long journey. Finally I thank each and everyone from KSIT for making my engineering days so colorful. The KSIT engineering journey will last forever!!

My journey at KSIT began in 2013 and has been an exceptionally good one. What the past 4 years have taught me, is tremendous in magnitude and value. Here at KSIT, it is believed that learning is the continuous process of gaining knowledge. It has helped me unleash my true potential by urging me to learn and not just study. I truly realised the joy of learning. Also, over the years, I have been able to improve my oratory skills, polish my professionalism and gain self-confidence. The Electronics and Communication department has been my guiding force throughout this journey.

The HOD, faculty and staff of the ECE department have helped me bring out the best in me. For this, I will forever be grateful to them. The management and principal of KSIT have been a constant source of support and have encouraged the students to always learn more. I take pride in being a part of this esteemed institution. Now, as I part ways with this institution, there is one thing I can tell with confidence, we are all leaving as more knowledgeable people and hopefully, as better citizens of this nation.

**-Varsha S Bhat**

At KSIT I never felt that I was far from my family as our faculty are student friendly, they trained us personally and treated us as their own children. What they taught us is not the education but the means of education. We were pawns in first year, ministers in second year, we were so excited of being seniors in third year, we were so happy that we will be graduated soon at the same time we feel sad that four years of my wonderful life is just becoming a memory. When this college gives me a degree, it is not the sign that I finished my graduation, but an indication that I am prepared for my life. I will be very much thankful to department of ECE for supporting and encouraging me in all the aspects.

**-Rohith Babu**

I feel, I am lucky enough to pursue my post graduation in ECE department of KSIT college. The professors are much helpful. Department has highly qualified, experienced and dedicated faculties, who make the students more knowledgeable and correct them for improvement. Our Head of Department Dr. P.N.Sudha is an inspiration to all the students. Our teachers have helped us in all aspects.

Their way of handling the subjects made us to love the subjects. In conclusion, KSIT is one of the best places to pursue engineering where we can obtain knowledge and values for life.

**-Bipani Sharma  
M.Tech**

It is my pleasure to take my post-graduation studies in KSIT college under ECE department. Excellent teachers, friendly atmosphere, very good materials in the learning Centre, committed staff holds the ECE department to the high knowledgeable position. Our head of the department Dr.P.N.SUDHA, the person so dedicated towards teaching, her approach

towards teaching, increase students confidence level. She can be described as "The person who reaches the students by her simplicity". My expectation is totally fulfilled. I feel more confident and fluent. So I conclude, KSIT has really good, friendly and welcoming atmosphere campus. The small size made it easy to feel at ease.

Ah!! 4 years of engineering...! It seems like a long time, but after joining KSIT it's been a fun ride from day one till now. Back in 2013 when I joined I expected college to be limited to academics and focused only on placements but later on, I discovered that college is lot more than just academics, placements and core engineering. We had all these wonderful co-curricular activities, events which supplemented the regular college life. Over the semesters, I had tremendous opportunities to take part in several events. One of such event was "VANQUISH", a technical event which is conducted by the department. The next being "ANANYA", our college fest. Being a part of the Ananya core committee was a new and different experience. I feel glad to say that with the support of our faculty our project secured first place in State Level project exhibition "Teleutsav". Our college not only helps us getting placed in good companies but also supports students who are willing to become entrepreneurs. A separate club for this called the "Entrepreneurship development Cell" encouraged me along with my friends, in successfully starting a company named "Inversa Technosoft Pvt. Ltd.". Throughout the semesters I have gained knowledge, exposure and made a lot of friends who are like my family now. We have made a lot of good memories which can be cherished throughout my life.

#### Bharath Gowda P S

I never realized how days passed by, in the blink of an eye we are already in final semester of our engineering. Most of them are happy to complete their degree, a few are happy that their struggles have come to an end, but here I am thinking why is my engineering life coming to an end so fast. 4 years of engineering is not just about the internals or external that we wrote or the FCD's we scored, for me, it has been a guru who taught many lessons for life. I started the first day of college journey with nervousness, as none of the faces looked familiar. But now, all of are together and are an integral part of my life. In this beautiful journey we have bunked classes, celebrated birthdays, had night outs, sleepovers, misunderstandings, fights, compromises and almost everything. After all this, I realized that we are no longer just friends, we are family. We have always been together no matter what ever the confusions and misunderstandings we have had. We are very lucky to have wonderful lecturers who stand by us and guide us no matter what ever the situation is. The whole experience of entering the department is different. The friendly behavior and the caring nature of the non-teaching staffs creates a homely atmosphere and makes us feel like our family.

#### Chetan K C

Well, ENGINEERING! Telecommunication Engineer was not something I had dreamt to be. Like they say "Expect the Unexpected" and I landed up in Bangalore from Mangalore, more specifically in KSIT for Telecommunication Engineering. The Basic Science Department extended a warm welcome to us in KSIT for our very first year. Physics theorems, Chemistry experiments, endless mass bunks, Hut tea - tea breaks, and I can go on and on but most importantly first year gave me something valuable called "Friends". My second year journey was a roller coaster ride with me trying hard to cope up with Academics and Ananya. Beginning of Third year in KSIT I was extremely low on confidence and had a bad academic score, that's when the genie popped out of the magic lamp in form of my faculties who helped me boost my self-confidence. Third year also gave me an opportunity to explore the hidden writer in me, to lead the college Blog Club. Final year arrived and has given me a lot of "Eureka" moments and now I do know how to apply a part of what I learnt all these years. Cold wars, Silly fights, Ananya practice sessions, Project reviews, Seminars. Yes, we passed through all this united.

Telecommunication in KSIT isn't just a department we are a family.

#### Neha C Keerthi

My journey at KSIT is a very memorable one, having ups and downs. Joining the department in second year as a lateral entry student was not at all an easy task. A totally unexplored environment. I found the technical subjects to be very difficult, but my lecturers helped me understand the concepts in such a manner that I started enjoying learning the subjects. During third year I had a backlog that ended up in me - having a year back. During third year I had a backlog that ended up in me having a year back and was heart broken. With the support of my ever endearing HOD, faculties and my near and dear ones I could overcome this period of crisis. KSIT gave me friends who were more like a family and teachers who were more like friends. Wonderful thanks to all who have been with me guiding and encouraging on every step of this life learning journey.
