## Report on Industrial visit "IISc - Open Day 2023"

Indian Institute of Science, Bengaluru, organised an "OPEN DAY" event to show-case its activities to the student community on **Saturday, 04 March 2023.**

Second year(3rd Semester) students of Computer Science and Engineering visited IISc-Open Day. The visit was accompanied by 5 faculties along with 50 students.

The main objective of the Industrial Visit is to give an exposure to the students. This visit will give the students to carry out projects in CSE domain or interdisciplinary. Students participating in events at IISc will boost their technical skills which help them during projects, placements, higher studies.

*Glimpse during departure from KSIT to IISc-Open Day*

**Schedule:**

| Time | Activities | Remarks |
|------|-----------|---------|
| 8:30am | Students assembling at KSIT | - |
| 9:00am | Departure from KSIT to IISc through college transportation | - |
| 10:20am | Reached IISc | Students and faculties has breakfast in IISc campus |
| 10:45am | Reported to volunteer for IISc Event | - |
| 10:50am - 1:45pm | Departmental visit to CSA, SERC, Electronics Engineering department | Students participated in events-seminar, coding competition |
| 2:00pm | Departure from IISc | - |
| 3:15pm | Reached KSIT | - |

The students found greater interest in the field of Artificial Intelligence, Machine Learning, Nano Science and its applications. Also experienced a Human Following Drone, Some amazing Scientific Virtual Reality experiences in own VR station, AI generated Human Avatars, amazing work that happened there.

The open day has potential to stoke the interest of many young minds, who may then go on to develop a fruitful, lasting relationship with science — or even have a career in the sciences.

*IISc: Computer Science & Automation Block*

The students and we faculties thoroughly enjoyed and learnt new things at IISc. It was useful both for the students as well as faculties.
