ELIMINATION OF SINGLE USE PLASTIC AT KSIT- 05:04:2021

We produce tons of single use plastic every year. These single use plastics are used only once and cannot be recycled. The single use plastic items include plastic bags, water bottles, polythene bags, plastic plates, etc. The use of such plastics needs to be banned because of its inability to decompose, production of harmful gases, soil contamination and environmental pollution. There are many suggested alternatives to plastics such as glass, cardboard, bamboo straws, etc.

We at KSIT took an initiative to create awareness about adverse effects on our environment because of single use plastics. Elimination of single use plastic awareness program was conducted on 5th April 2021 in the campus of KSIT. As a part of this event, CEO Dr.K.V.A Balaji ,HOD'S Of various departments, NSS student volunteers and faculties of KSIT gathered together to create awareness about this issue. Our principal Dr.Dilip Kumar.K addressed all the volunteers regarding the activity which was held.

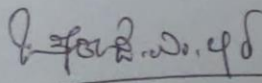

Then all the student volunteers joined hands together and cleansed the college surrounding by picking up all the plastic materials.

An initiative is been taken to keep our college campus free of plastic and replace them with eco-friendly alternatives.
