Training Module:

This section provides the summary of the trainings conducted. There were a set of trainings conducted for all the students as below.

- 1. Body Language Focus
- 2. Business Etiquettes
- 3. Career Management
- 4. Change Management
- 5. Conflict Management
- 6. Creativity Skills
- 7. Decision Making Skills
- 8. Emotional Intelligence
- 9. Formal Writing Skills
- 10. Leadership Skills
- 11. Presentation Skills
- 12. Public Speaking
- 13. Reading Skills
- 14. Stress Management
- 15. Team Building
- 16. Time Management

1. Body Language Focus

Non-verbal communication forms more than 60% of regular communication. It is important for students to inculcate a strong sense of professionalism in their overall conduct through the right demonstration of body language. Core concepts covered:

- Importance of body language in communication
- Being aware of gestures, postures, eye contact during communication

2. Business Etiquettes

Being able to inculcate the right level of business conduct is imperative for students to enable themselves to become a good employee. Skills related to business etiquettes learnt early facilitate the professional learning and adaptability.

- Introduction to the professional environment
- Basic methodologies of demonstrating professionalism
- Communicating in a business scenario through combination of both behavioural skills as well as body language

3. Career Management

A career is important for any professional and build habits early in their life to ensure they can maintain focus. Tools for career management are important in order to start practicing through their engineering course time. Key concepts covered:

- · The difference between job/work and career
- · Analyse key careers and the differentiators in real life
- Build Commitment, Curiosity and Perseverance to achieve career goals

4. Change Management

Change being the only constant aspect in life, recognising them early and building an adaptive mindset helps in not just being successful in the engineering course but also enable tangible outcomes through practical experience. Key concepts covered:

- The reasons for resistance to change
- · The Change process and techniques to adapt
- · Group activity on enabling change through real life scenarios

5. Conflict Management

Conflicts are essentially a regular phenomenon of any professional. Identifying and being able to resolve conflicts based on end goal in mind provides clarity and progress for people. This skill is imperative to ensure students develop a mindset to face and solve conflicts.

- · The nature and reasons for conflict
- · Different conflict management techniques
- The art of being outcome focused than problem focused

6. Creativity Skills

Being able to think out of the box is an important requirement in the professional environment thereby solving problems. Being able to bring out creativity to solve problems enhances the confidence of students and makes them agile.

- · The importance of creative self
- Barriers to Creative thinking
- · Building practices that facilitate creative thinking

7. Decision Making Skills

Professionals are required to make decisions and be able to remain accountable for the same. As the students grow over the next 3 years in their engineering course, their ability to make the decisions facilitates their independent cum responsible professional life.

- Concepts related to Decision Making
- Different attributes to consider for making decisions
- The art and science of decision making

8. Emotional Intelligence

Whilst the students are steadily focused on building their academic intelligence, an effort needs to be made to consciously be aware of their emotions as well as others. This practice facilitates them in building self-confidence and more social awareness.

- · The importance of Emotional Intelligence
- Managing emotions through habits and practices
- Building self-awareness

9. Formal Writing Skills

Writing is an important skill that enables them to articulate their thoughts on paper. Formal writing is required to follow certain rules that demonstrate the professional mindset. Through this skill, they are able to create relevant professional impressions through projects and post placement work assignments.

- The formal writing framework
- Different formal writings- Essay, Letters, E-mails, Reports
- Different tools to build strong writing skills

10. Leadership Skills

Leadership is a skill the industry is now expecting out of junior people so that grooming becomes easier. Students who can demonstrate strong leadership skills have an edge in their professional development. Key concepts covered:

- Leadership Essentials- Capabilities and Behaviours
- The impact of a good leader
- Practice tools to build leadership skills in daily life

11. Presentation Skills

The current day professional development involves extensive presentation that demonstrates ones communication and thinking capabilities. These skills focus on the tools of building a strong presentation facilitated by an effective Presenter.

- Presentation document essentials
- · Do's and don'ts of a presentation
- Enabling presentation through effective communication

12. Public Speaking

Effective communication involves the ability to speak in a group or gathering overcoming the fear. This skill enables the student to build their ability to face their peer group to begin with as well as others in a professional set up in the future.

- The benefits of Public Speaking
- Tools to develop strong public speaking skills
- · Overcoming stage fear

13. Reading Skills

The ability to read accurately and in a fast manner makes a huge difference for students to adapt to professional environment as well as their studying skills. Through effective and fast reading, students are able to consume information and provide the necessary outcomes.

- The importance of reading skills
- How to build consistent reading ability
- Barriers and tools to overcome lack of reading

14. Stress Management

Students today operate in the information age which is a double edged sword. On one end they appreciate the opportunities but on the other side face extreme pressure to complete diverse tasks. Their ability to create a balance in early stages facilitates a strong personality.

- The difference between managing stress and eliminating stress
- Tools to effectively manage stress
- Creating strong practices for consistently managing stress

15. Team Building

Working in teams is the norm of any professional environment. The ability is to not just contribute to a team but also facilitate the contribution by other people within the team. This skill is critical for the success a student aspires to build.

- Team building methodologies
- The advantages of working in teams
- Managing team performance and individual performance

16. Time Management

One of the key focus areas for students is to effectively manage their time. As they spend time in a professional engineering course, they will have to understand their priorities better and be able to accomplish all the expectations. In this regard, the following were covered:

- Benefits of effective time management
- Techniques to manage time effectively
- The advantage of time management practices beyond student life

Observations:

As a learning partner for the esteemed institution, it was an honour to be collaborating with the placements office to execute the training. Our key observations over the one-week training are below:

- The students have a strong enthusiasm to learn
- The students actively participated in the training programs

Suggestions/Recommendations:

In our observations, we humbly place the below suggestion

- The ability to concentrate can be enhanced and this requires regular interventions
- There is a critical need for students to adapt to behaviours that will facilitate their professional
 journey and the grooming through training has to remain constant to achieve the same
