REPORT OF ONE WEEK AWARENESS PROGRAM ON Cauvery Calling-Action Now

A one-week awareness program was organized by NSS UNIT and Department of CSE at KSIT, about “**Cauvery calling**” from 31st August to 7th September.

On 8th September “Calling Rally Event was organized by ISHA Foundation” in which all the KSIT NSS members and other students volunteered to be a part of the event.

Awareness created regarding :

1.Cauvery's Depletion

- Cauvery has depleted over 40% in the last 70 years
- 87% of the basin's original tree cover has been lost
- During the summer, Cauvery is unable to reach the ocean
- 70% of Cauvery basin's soil suffers erosion

2.Farmer Distress

- 83% of farmers in Tamil Nadu and 77% of farmers in Karnataka are in debt
- 17 districts in Tamil Nadu were drought-hit in 2019
- 15 of the last 18 years have been drought years in Karnataka
- Almost half the Cauvery basin suffers critical groundwater depletion

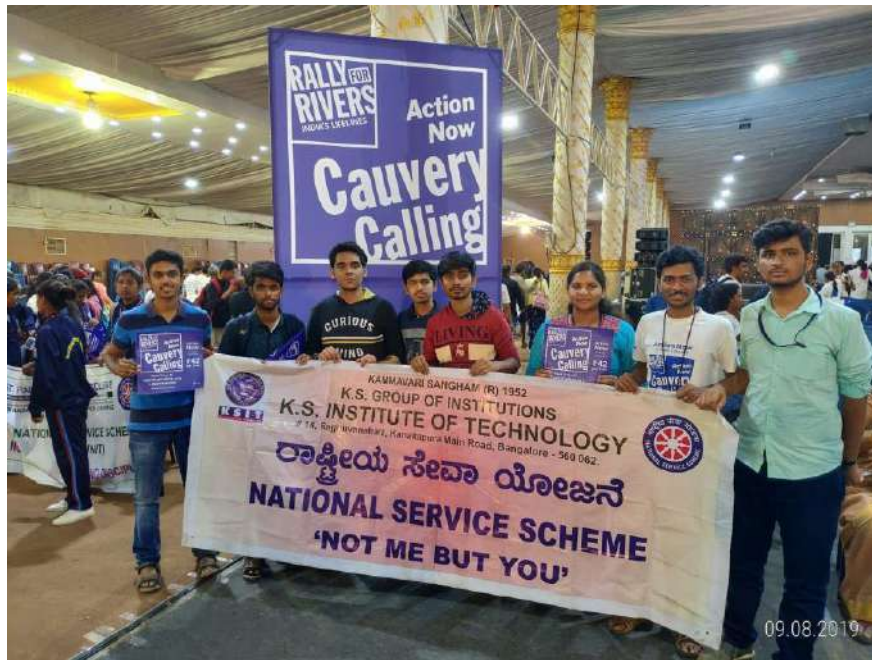

3.Saving Cauvery

To reverse this dire situation, revitalize Cauvery, rejuvenate the soil, and improve farmers' income, Cauvery Calling will support farmers to plant 242 crore trees. It is estimated that these 242 crore trees will increase water retention in the Cauvery basin by about 40%.

4.Calling rally event

On Sept 8th, which marked day 7 of intense Cauvery Calling action dignitaries like B.S Yediyurappa- "Chief Minister of Karnataka", Kiran Mazumdar-Shaw, Shri C.T Ravi and Rajamata Shrimathi Pramoda Devi. In the event, CM explained that the forest department has already started to prepare the 2 crore saplings to distribute among the farmers. Whilst Sadhguru at the end of the day spoke about the accreditation from

UNCCD(United Nations Convention to Combat Desertification) for showing the Cauvery revitalization as a model to the whole world.By inspiring everyone irrespective of old or young that saving our rivers is our ability to respond as being Human. Overview:

Nutrition is the process of consuming, absorbing, and using nutrients needed by the body for growth, development, and maintenance of life.

To receive adequate, appropriate nutrition, people need to consume a healthy diet, which consists of a variety of nutrients—the substances in foods that nourish the body. A healthy diet enables people to maintain a desirable body weight and composition (the percentage of fat and muscle in the body) and to do their daily physical and mental activities.

If people consume too much food, obesity may result. If they consume large amounts of certain nutrients, usually vitamins or minerals, harmful effects (toxicity) may occur. If people do not consume enough nutrients, under nutrition may develop, resulting in a nutritional deficiency disorder.

Susceptibility to various problems change as people age. Each person's risk factors are unique. A thorough understanding of what they are is necessary to adequately reduce those risks .so **NSS KSIT** student branch in collaboration with VHD Central institute of home science,Bengaluru conducted “**Nutritional Awareness** ”program on 14th November 2019. The main objective of this event was to provide good health to the fellow KSIT members.

100 students along with staff members actively participated in this event. Faculty members of VHD Central institute of home science diagnosed problems of the students,staff & provided beneficiary advices regarding their health.

NSS volunteers served as a helping hand to the doctors by assisting them in the service. NSS KSIT sincerely thank VHD Central institute of home science for their support.

ACTIVITY HEAD 1: Helping local schools to achieve good result and enhance their enrolment in Higher/Technical/Vocational Education.

NAME: JYOTSNA UPADHYE **USN:** 1KS18EC036 **SEM & SEC:** IV SEM, A SECTION

DURATION OF ACTIVITY:

DATE:

EVENT CONDUCTED: Word Puzzles for 6th standard students.

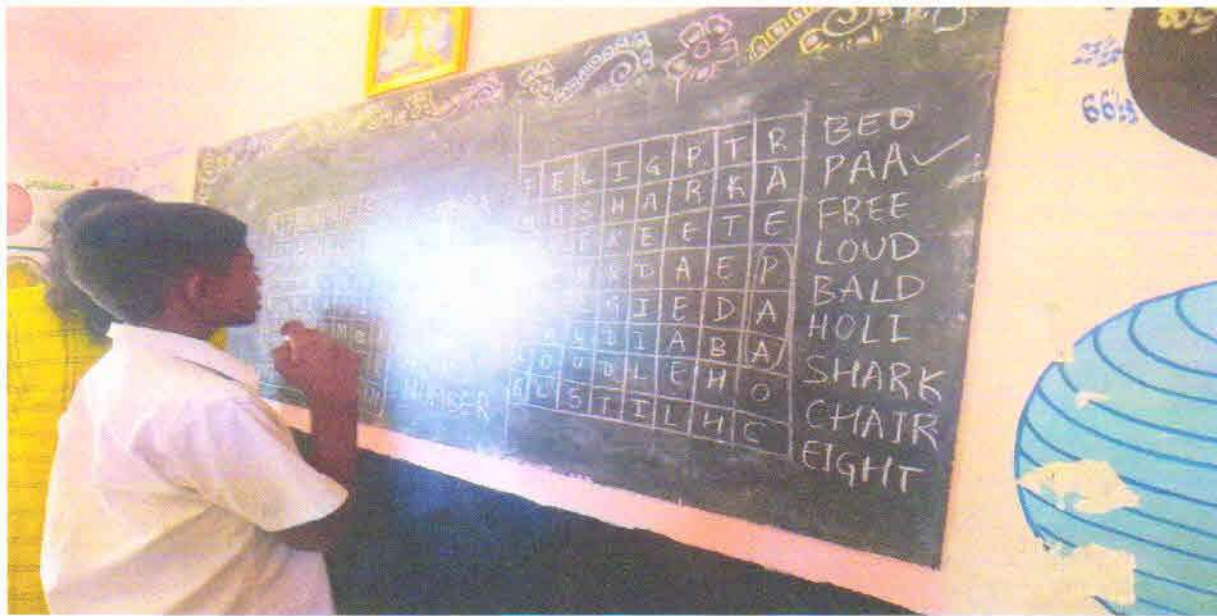

OBJECTIVES: Some of the objectives of the event are as listed below.

- They are fun for the whole family so the whole family can get involved in it.
- They appeal to techie kids.
- They help with test preparation.
- They are portable.
- They help develop word recognition.
- They assist in learning context clues.

OUTCOMES: Word Puzzles such as cross words and logic problems, where children have to access vocabulary and definitions from memory, can help to improve their working memory. This can then also have an effect on their learning and achievement.

Word Puzzles can help improve children's processing speed, so that they are able to solve problems and arrive at the correct answer, faster. This doesn't just help with other classroom tasks that require quick thinking, such as mental maths.

CONDUCTION: As soon as we entered the classroom, the kids were excited to know why we were there. So we introduced ourselves and got to know the kids also. We explained them why we were there and what were we going to play. For some warm up we played word building. Then, we gave them few word puzzles wherein they had to search for words. They learnt words and also they came to know their meanings. Very importantly we also taught them how to pronounce the words and how to use those words in sentences by giving them some examples.

Events conducted:

- To Teach the school students about their basic mannerisms
- To make them aware how to conduct quizzes

Students from 4th semester, K. S. Institute of Technology visited K. P. S. M Prudence School, Kanakapura on 15th February, 2020. The students got divided into groups to teach the children in the school.

The group which conducted quiz to the students was:

Objectives of the program:

The main purpose of this event is about:

Manners are important to make a good impression in day to day life. Its better if they learn it in the beginning of their student life as they can carry over till the end of their life. No matter where ever they are and whatever they are but practicing good manners is important. Good manners creates an effective interaction with friends as well as make a good impression on public platform. It helps us to boost our confidence and morality.

A Quiz is a game which can also be called a mind sport wherein the players, either individual or in teams attempt to answer questions posed to them correctly , in order to win. To test as well as spread general knowledge to student we conducted quiz. As by conducting quizzes the students will learn the subject in a much easier way than

normal conventional teaching way. So with these uses we thought of teaching the students about the quizzes and the way to conduct quiz. To not to discriminate between topics we had covered state, national and international current affairs questions . We divided the students into groups of 2 so that they could get to know about more questions and allotted marks for right answers given by the student and corrected the wrong answers given by them.

Advantages of this session:

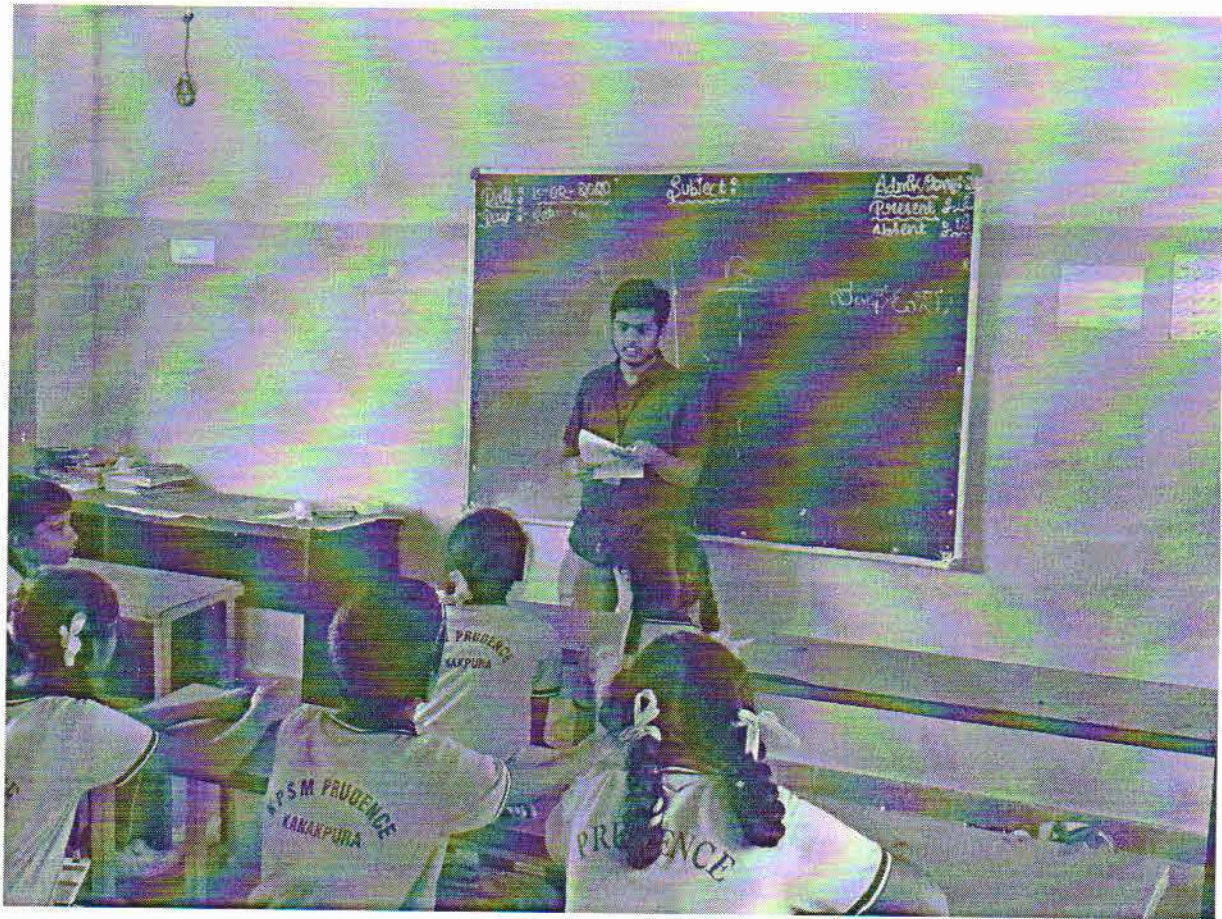

Quizzes are a fun way of learning anything . Students are placed in the right attitude for learning they feel more confident to discuss the subject . They help to improve or expand one's knowledge of things .

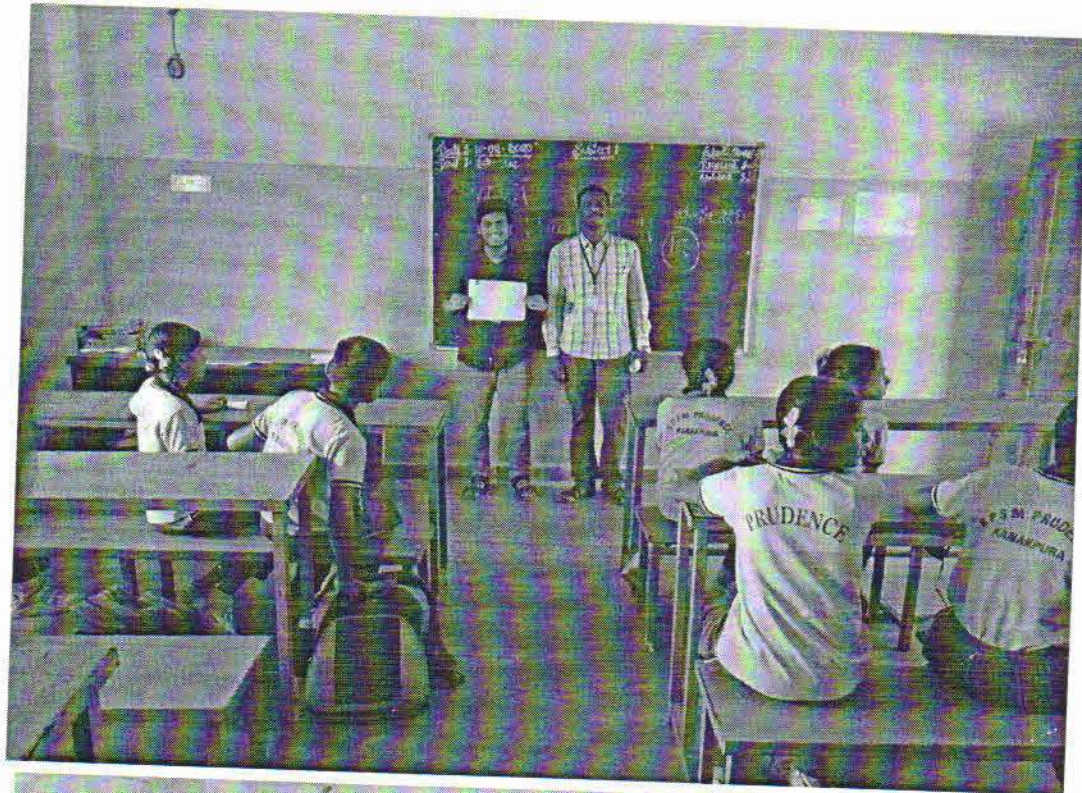

It promotes healthy debate among students in order to learn from each other .It helps students to work as a team thereby improving their team building skills.

Outcome of this session:

After explaining them all about quiz we conducted a quiz for the students with some basic questions about general knowledge and current affairs. All the students actively participated in the quiz conducted by us , we divided the whole class into groups of two student each and we offered some points for correct answers. Students were very excited to answer for their questions as we were to ask them . Our team hopes that our session could help the students while conducting such quizzes by themselves. Our team feels proud to teach them as well as to learn from them we definitely improved their knowledge.

Both these programs facilitate a cycle of high productivity, increased employment opportunities, income growth and development. In our country almost three fourth of Indian population lives in villages. Therefore, Indian Human Resource is primarily based in rural areas, so, to identify the needs (skill set) of villagers for local level opportunities of income generation, they must be provided age-appropriate skill training which includes skilling, re-skilling and up-skilling. So the survey was done to collect some data on the education qualification along with the skills acquired by the youth in order to pursue their career.

- To collect appropriate information in order to organize training programmes for the interested candidates.

Program Schedule: -

Session 1:

All the students along professors started at college and reached the nearest village. Later, a small introduction was given to the students in order to understand the importance of the survey by granting them some knowledge about what is the objective of survey. Then students were divided into 6 groups.
